C01: Kelly & Jane Discover the Cane Jane, the secretary, and Kelly, the maid, work for CP author Bob Coleman at his elegant house. Set in the sixties, he believes in putting into practice what he writes about. The two ladies have a difficult relationship and wind up fighting often, which gives Bob plenty of opportunity to whack their pretty bottoms. The maid is very pretty in her neat black and white outfit as her bottom is thoroughly reddened while the prim, starchy secretary is absolutely ripe for a sound spanking. The film ends with both ladies receiving twelve strokes of the cane with their bottoms seen bouncing in the mirror while their faces illustrate the effectiveness of the cane. **Together with C04 on the same DVD and charged as one DVD.**

C02: Consequences One A pretty young wife goes to London for the day without telling her husband, instead telling him she is going into Manchester. He is furious when he finds out - a bomb scare in Manchester exposes her story. He is even more angry when she refuses to tell him why she went to London. After a sound spanking, which fails to elicit the truth, he sends her to make some coffee. Seeking revenge, she puts salt in his coffee! The husband's patience is finally exhausted. First the strap, then the cane, is applied to her shapely bottom, until the truth is finally revealed. **Together with C03 on the same DVD and charged as one DVD.**

C03: Consequences Two: Paula's dreams are dominated by spanking fantasies. We go into her mind and see her dreaming about her husband spanking her. In the next dream, she is back in the sixth form and gets six of the best from a prefect. This leads on to where she is at teachers' training college and her training includes a taste of the paddle and the cane. In her confusion, however, she imagines that she also receives a thrashing with the riding crop. Finally, her irate husband returns home, who ticks her off soundly for going to bed rather than doing the house work. A further six with the cane leads to a thorough rogering! **Together with C02 on the same DVD and charged as one DVD.**

C04: The Sports Mistress (Rattan College 1) Mary is the captain of the Rattan College cycling team. Flushed with victory, Mary and another girl stop at the pub to celebrate on the way back to college. A little later she is breathalysed! The video starts the next morning when Mary receives six of the best from Miss Grant, the Sports mistress. Afterwards, Mary and Miss Grant start talking about their CP experiences. Then Sir Jasper, the head of the College Governors, arrives. He is appalled at what he considers is the modest punishment of Mary. He applies a further six of the best to her trim bottom before sending her out. Then after a dressing down, he applies the cane to Miss Grant's superb bottom, to express his displeasure at her lax approach to discipline. **Together with C01 on the same DVD and charged as one DVD.**

C05: Rattan College 2: Sarah Remembers Everything. Some erotic overtones in this one, Sarah leaves Rattan College where a hot, red, throbbing bottom was a regular event for this rather indolent young lady. Her new boy-friend is a CP enthusiast, and they discuss her punishments at length. Over several evenings, they reenact as many of them as possible. The first scene he places the naked Sarah over his knees and smacks her bottom until he feels the passion welling up in her. By the last scene, he gives her six traditional stripes across her shapely bottom, and we leave them where the inevitable conclusion of such treatment commences. **Rhyme & Reason (Aka: Impertinence).** A young lady makes up a very naughty poem about her maths master. He is furious and she is summoned to his study. She is strapped face down over a table as the first part of her punishment. She is then made to read each verse of the poem. After each one, she gets three strokes of the cane on her bare bottom. So flustered is she that she repeats a verse by mistake: and still gets the three strokes for the extra verse; brilliant acting by two performers deep into the scenario. **End of Term.** The headmaster summons three sixth formers who have received particularly bad reports to his study. They are brought in by Miss Black who outlines their reports. Each one gets a good end of term beating, and is told to take their striped bottom off on vacation, to think how they can improve for next term. But the Head is still not satisfied. Miss Black also receives a good ticking off, and is told that her performance is not so good either. Her bottom is soon striped as well as the head doesn't spare the rattan. But in this case we leave them in a tender embrace!

C06: Female Spanking Fantasies This video is something of an experiment. We all know that being spanked is an erotic and well-known female fantasy (About 18% of women find it erotic according to some US research). So we asked five young ladies to tell us about their favourite scenario, with a view to filming them. The results varied greatly, from a superb twenty minute scenario to one that just managed five minutes. The jump from fantasy to reality is not always easy. We asked the young ladies to show us how they fantasised about being spanked them, then intercut the spanking scenes to give a sense of reality. The result is highly erotic! NB: This is a *Spanking Only* video.

C07: New Girls A two part video with the theme of young ladies making a first test video, and how it goes. In the first part, Naomi takes part in a headmaster - sixth former in trouble scenario. She is summoned to the headmaster's study

when some money goes missing. The hand and the slipper encourage her to confess while the cane atones for her sins. For really genuine facial expressions, don't miss this section. In the second part, Christine upsets her boyfriend by taking calls from other 'lads' on her mobile. Her irate boyfriend takes her home, strips her off and gives her a long discipline session, her first taste of corporal punishment. [Together with C10 on the same DVD and charged as one DVD.](#)

C08: Teacher's Folly A classic tale of sixth formers in trouble! School sneak Joanne gets Sarah and Fiona into trouble, by reporting their meeting with their boy friends to Miss Bolton. She makes the mistake - the folly - in punishing them herself. Dr Fordham discovers this and he is not pleased. Not satisfied with the punishment, he spansks and canes the girls himself. Then it is Miss Bolton's turn. Dr Fordham demonstrates on her, for her benefit, how the job should have been done. As a finale, Sarah and Fiona bend Joanne across a desk and give her a good spanking. [Together with C09 on the same DVD and charged as one DVD](#)

C09: Well-Thrashed Glamorous young Kaye applies for a job on the editorial staff of a spanking magazine. Obviously, the editor wants to know her CP experiences, which she tells in a series of flash-backs. Satisfied with her resume, he then requires practical evidence. She has to watch another lady member of staff (played by the popular, much spanked and caned Alison!) take six of the best, then prove she can take it as well. She passes with flying colours. [Together with C08 on the same DVD and charged as one DVD](#)

C10: Staff Cuts A local squire converts his home into a country house hotel. A firm believer in traditional discipline, he records all the misdemeanors of his female staff in a Punishment Book, especially the activities of his well-worn cane. The French Maid, the cook, the shapely gardener, and even the squire's daughter have entries in the Book, some several times. The cane and strap appear regularly in the entries. We see each scene reenacted as the squire browses through the punishment book. [Together with C07 on the same DVD and charged as one DVD.](#)

C11: Take Three Girls Part One: Take Three Girls Life in a British sixth form college! Jackie and Veronica are often in trouble. Mandy, Jackie's sister, at another college is usually a "goody-goody". Jackie rings Mandy for consolation after being told to attend her house-master's study to find Mandy is about to get six of the best as well. Over the next day, canes are busy: Jackie is beaten by her house-master, following a spanking that he cannot resist. Later, we see Mandy getting her sixer from her headmaster, while Veronica is caned by her house-mistress next morning. But the girls cannot resist getting up to mischief, and Jackie and Veronica receive another six of the best from the headmaster next day. **Part Two - Doctor in Command** Mary is astounded to hear that her childhood sweetheart is now the local doctor. She trumps up an excuse for him to call and see her, and wears a shockingly erotic outfit to meet him. He soon sees through her ploy and proceeds to spank her. Then he sends her back to their old headmaster for a traditional six of the best, as a final punishment. [Together with C16 on the same DVD and charged as one DVD.](#)

C12: The Art of Spanking A treatise on the noble art of spanking! Many enthusiasts will have cause to discipline both staff and girl-fiends/wives. This tape shows how to deal with a secretary and girl-friend, and the different approaches necessary. There are six scenes for each situation, covering hand spanking, the paddle, the tawse, the martinet, the riding crop and the cane. For the secretary, they are used firmly and with great authority. For the girl-friend, their use develops with the relationship. [Together with C13 on the same DVD.](#)

C13: Spanking Dreams Part One: Six of the Best Glamorous Alison has found a job at a conference centre, but soon runs foul of the no smoking rule. Delightful in her red uniform, she gets six of the best from the supervisor. Then is sent to her room to compose herself. On the bed, she falls asleep. Disappointed in the caning, she dreams about how it should have been done, how she would have asked for each stroke, her shapely bottom high in the air, she takes a further twelve strokes. **Part Two: Maid for the Birch** Colonel Kensington is having trouble with his maid; at breakfast one morning she slams down her keys on the table and storms out. Stunned, he sinks into a day-dream, wondering how his worthy grand-father would have handled the situation. The solution would have been the brisk application of the birch. We see him apply the birch with great gusto to the charming bottom of the errant maid as she holds her bloomers wide open. **Part Three - Count Spankula** The voluptuous Tracey reads too many horror magazines. One evening Count Spankula arrives in her bed-room looking for taste of young blood. The best blood is from a recently spanked bottom of a young lady. He gives Tracey a thorough spanking until her bottom is hot and glowing red. The rest is obvious! [Together with C12 on the same DVD and charged as one DVD.](#)

C14: Wayward Wives These are three short stories about husbands having trouble with wives and how to deal with them. In the first one, the irate husband finds that his wife is having an affair. He makes her bend over a tall stool and commences the interrogation, assisted by firm slaps to her shapely bottom. The truth known, he applies six of the best with the cane as punishment. In the second, a troublesome wife is sent up to her bed room. She waits nervously on their four-poster bed until he arrives. She then bends over the end for the strap and the cane. Finally, more trouble with a particularly glamorous wife who has mounting trouble with her time-keeping. A striped bottom comes to the rescue. [Together with C15 on the same DVD; charged as one DVD.](#)

C15: LQQK back in Spanking Sarah and Carol went to the same sixth form college and then joined the same company. They meet up again several years later and decide to go for a cup of coffee. There the waiter turns out to look very like their old boss who used to use the cane on them with gusto. The two start to reminisce about the punishments that they received both at college and from their first boss. In turn, they describe how they were strapped and caned, each trying to trump the other girl's story of how severe the punishment was. We see every story! This tape also includes about twenty minutes of trailers from Moonglow North Tapes. **Together with C14 on the same DVD and charged as one DVD.**

C16: Spanking Down Under How they do it in Oz! If you like family discipline tapes, these will be for you. Not very heavy but some intense scenes, and the uncle does eventually produce an over-due cane!. **Part One: Natasha Never Learns.** This is a mother who makes a daughter, who thinks she is too old to be spanked, regret that idea! Ruler and gym shoe are applied with gusto to the shapely bottom, as well as a hard hand that does not let up in a hurry. **Part Two: Victoria Says Uncle.** Victoria, in part two, has to spend a term with her uncle in Melbourne. What a revelation! The spoilt brat's bottom dances to the tawse, paddle, ping pong bat and eventually the cane before she gets the message. When she sprays her uncle with the hose one afternoon, his fury knows no bounds. An interesting couple of half hour tapes from our cousins down under. **Together with C11 on the same DVD and charged as one DVD.**

C17: Members' Compilation Running time: 90 minutes. At various times, members offer us videos that they have shot themselves or filmed with our assistance. This tape is a selection of four of such tapes, which we thought members would enjoy. **(1) Pillow Fights & Stripes:** A partner in a law firm has too very difficult secretaries. After a particularly difficult day, he sits back and imagines how he would deal with the young ladies if he was their headmaster. That would include a liberal dose of a nice, swishy cane. **(2) Caned for Smoking:** In this short story, a sixth former gets caught having a smoke with the college gardener. She is told that she has a choice; either she gets the cane or he gets sacked. After a paddle reddens her bottom, the cane stripes it. **(3) Punishment Hour:** A college prefect is in serious trouble. She is called in for a punishment hour, which includes several sessions of effective bottom reddening. **(4) Dancing Red Bottom:** A short final clip where a young lady in bright red leggings goes for a good caning.

C18: Spy School This tape sees the return of Alison, a young lady familiar to and very popular with longer established Moonglow members. Set in a spy school for young ladies, it is filmed on a hidden camera basis. That is, it is almost all action. After the event, we decided to count the cane strokes; the two young ladies receive about 230 between them! The story is about a section leader, Helen, at the training school. and a member of her section (Alison). Among the many scenes, we see Helen, bare-breasted, giving Alison a good thrashing. Both girls are given sound unofficial spankings at one point; we see their bottoms glowing red by the end. We weren't sure whether the spankers' hand or the girls' bottoms stung more at the end. On top of all this, we see the young ladies getting caned by several members of the staff. One for all enthusiasts for the cane!

C19: Highlights. Extracts from number C01 to C18

C20: Wrens in Trouble. The cadets at a secret Wren training establishment (Special Intelligence Section) are about to go home for the summer vacation. The chief instructor has to conduct the end of term reviews. He has left Stewart and Phillips to last because their record has been awful that term. What a disaster; rifles nearly killing people or drunken parties in town, to mention a few incidents. We see how the Major deals with them - very firmly - before the Chief Instructor gives them a final end of term caning. (For our US friends, Wrens are female members of the British Navy)

C21: The Caning of the Spanish Master's Wife Scandal! The Moonglow Academy is stunned when the Spanish Master's Wife gets a spanking from a kitchen maid. The spanking has a series of knock-on effects that the wretched maid could not possibly have forecast. Our story starts in Dr Fordham's office, the college's ancient history teacher, who is about to give tutorial about the history of corporal punishment. Waverly the maid refuses to tell him where Señor and Señora Adama have gone. When Dr Fordham threatens to spank her for lying, she admits that she knows where they have gone, and why. She had spanked Aura Adama! The film flashes back to the spanking. We see Waverly spanking Aura. Señor Adama walks in, and for good measure spans both women. What Aura does not know is that Waverly and her husband are into spanking games. However, he takes the opportunity to teach his wife the joys of being spanked, and caned. He hauls her off to the punishment room, while the maid peers through the door. Dr Fordham is shocked by this story, and the video ends with him giving the wretched maid a good spanking, which is of course exactly what she loves.

C22: Nanny's Folly David has taken the children off for a long weekend leaving the nanny, Dusty, and his wife, Moira, at home. Dusty is smoking pot in her bedroom, fantasising that Edward, Moira's father, is spanking her. Moira walks in and catches Dusty; she is not amused. She spans her in the bedroom then tells her to come down to the sitting room in five minutes. Nervously, Dusty goes down to the sitting room, where Moira canes her. Later, Edward enters, amused. Dusty runs out back to her room. Meanwhile, Moira has promised David never to spank a nanny again after he had to buy off the previous one who was threatening to sue them. Edward agrees not to tell David if she takes a caning from him. She is spanked and caned.

This DVD-video also has a 15 minute scene shot at a *Moonglow Party* where a dispute between two delectable ladies

is settled by a caning competition. One takes 46 strokes before pulling out while the winner proves her credentials by taking 56 strokes.

C23: Spanking Reminiscences A researcher visits a leading girls' academy which has abolished corporal punishment several years ago. He wants to interview staff members who attended the college as students, and to interview them on their spanking and caning experiences. The first is Louise, the wife of one of the present masters at the college. We start by her recounting a severe caning she received for smoking pot. We see the cane bouncing savagely off her upturned, enjanead bottom. Then she admits that her husband still spansks her, her favourite scenario being tied to a cross and having her bottom smacked in that position.

Next is a present-day teacher being interviewed, who admits that she was caned twice while in the sixth form. She was one of three girls caught cheating in mock exams and her bottom paid handsomely for this serious transgression of the rules. Finally, the Spanish Master's Wife is back, being soundly caned yet again. She was caught smoking pot with Louise and paid the same penalty. We see her shapely bottom dance while she is bent over a caning school. Then finally her husband enters and gives the researcher a demonstration on how to chastise a wife with a shiny black leather paddle.

C24: Boss's Pet A manageress at a posh hotel is furious when she finds a valuable vase is knocked down, in fact by a new young maid towards whom she has lecherous inclinations. Her "pet" however blames other staff members, which gives the boss a perfect opportunity to apply the cane, with enthusiasm over their bared bottoms, more than once as she pursues her inquisition. But of course the truth will out. She eventually admits that she knocked over the vase. The manageress seizes her opportunity. The pet is stripped off, given a mild spanking and sent to the boss's bedroom! An all-girl video.

C25: Army Stripes Filmed over three sessions, this tapes has six girls in it; quite a result! Set in the Second World War, our ladies, who are meant to be guarding the ammo dump, enjoy gambling in the staff room much more than sentry duties in the cold. But the local redcaps are not above exploiting the situation. Instead of putting the girls on a charge, they meet out some much more instant discipline, with great gusto and enjoyment. Even the female officer gets a hot bottom when she crosses the cheeky redcap. This tape is a must for those who like their girls spanked in uniform.

C26: Lady Penelope's Folly Our squire tries to move his manor into the twenty-first century, in some things. He sets up a training centre in the manor and employs Dr Thwackam to run it. But both he and the squire believe in traditional discipline for the young ladies who work at the centre. Now when Lady Penelope's valuable broach goes missing all hell breaks loose.

The first suspect is Mary, her Ladyship's personal maid. She is spanked by Penelope herself, soon joined by the good Dr Thwackham. She blames her step daughter, Connie, who then is spanked by Dr Thwackham and the squire. She in turn blames Stella the kitchen maid, who is next for the "Squire & Thwackam" treatment. She blames Mary to the exasperation of the squire. He decides that all three will be spanked until the truth will out. So Penelope, Thwackam and the squire get down to a serious triple spanking, before the squire decides that Mary is the guilty party. They decide to give her a good thrashing with the cane, which is nearly complete when a messenger arrives from the local pawnbroker. Lady Penelope left the receipt behind for the broach when she pawned! The squire is furious. Now it is Lady Penelope's bottom that will suffer. Mary, the Squire and Dr Thwackam each take turns to give her a good caning.

C27: Lessons in CP There are times when young ladies have to be on the dishing out side. But they have to learn their trade like anyone else. This video is about a very special academy for young ladies, specialising in training them to be experts in the administration of corporal punishment. But of course they must know how it is going to feel. Hence they are put through their paces, to experience a hand spanking, the tawse and of course the cane. Three very attractive ladies start this course, but only two finish!

And Does it Hurt? Maisie is caned in the punishment room by Anne in the last of a string of canings for wearing jeans to college, a budding rebellion curbed. Anne returns to the common room. Mary and Corrine, two young teachers, discuss how tough Maisie is as both have had to caned her as well. Then they begin to exchange their own spanking experiences. Finally, they wonder if they could take what Maisie took. Anne offers to cane them; they rise to the challenge. So they all go off to the punishment room to see if they really can take it! Now they know what they will be dishing out in the future.

C28: New Moonglow Girls Part One: Gina's Tail. We regularly receive requests from young ladies to participate in videos. On this occasion, we had two and we decided to make a test video. This is the result. The story line is simple; an office in the 1950s where the boss enjoys putting his pretty young staff across his knees for a traditional spanking. His Swedish secretary is shocked, attitudes in Sweden being liberal even in those days. His office junior is more philosophical, having just come from a school where red bottom were not uncommon. This is a hand spanking only film. **Part Two: Mandy's Memories.** Mandy is an "old girl" who married a young master at her college. Now her husband is a house master and a friend of her husband is visiting. They get onto the subject of corporal punishment. She describes her experiences when she was at the college, in days when girls got the cane. She also admits that her husband, now deprived

of the right to stripe the bottoms of his students, still takes his frustration out on her bottom.

C29: The Maid's Revenge This tape starts with the scullery maid having her bottom soundly striped by the butler. The phone goes and the butler finds Her Ladyship screaming at him down the phone. The lady's maid has messed up her ladyship's coiffure, and she is furious. The butler tells the footman to finish off the scullery maid's caning and proceeds upstairs. There her ladyship tells the butler to take the maid away and soundly thrash her bottom. Of course he obeys. Big mistake on her ladyship's part! It turns out that the maid had intercepted a love letter from her ladyship to her lover. Blackmail! Either her ladyship takes what the maid has just received or the letter finds its way to his lordship. With little grace, her ladyship gives in. The lady's maid whips her ladyship's bottom while the butler and the footman look on! Justice, Upstairs, Downstairs style.

C30: Prefects' Stripes It is the last day of the last term before the cane is abolished. Four masters are toasting the cane in best whisky, reminiscing about the attractive young ladies whose bottoms have been soundly striped. In the process, the maid, who is serving the whisky overhears them and calls them a load of "pervs!" She gets soundly spanked for her audacity. We see the reminiscences as flashbacks. At one point, the four senior prefects, each a head of house, are caught drinking in a study. One by one they are caned by their own house masters. We also see them have their shapely bottoms leathered at various points in the story. Finally, a prefect comes in to report that she has been caught cheating in mock A levels. The video ends with each of the four masters giving her a final six of the best.

C31: Nemesis for Lorna Harry makes a real mistake! He promises his sister that he will keep an eye on Lorna, her rebellious daughter who is at college near where he lives. Within days, they are arguing. One evening she returns from a demonstration in support of the striking firemen instead of attending lectures. They have a row and she hits him over the head with her banner. Realising that she has gone too far, she goes upstairs to her bedroom when he furiously sends her out of the room. He sits down to ponder the problem, and starts to day dream. He remembers what happened to a girl in 1971 who went on a Ban the Bomb march. He imagines that he gives the same treatment to Lorna; a spanking followed by a good caning. When he wakes up, his mind is made up. He storms upstairs and grabs the wretched Lorna who has gone to sleep. He spans her soundly then produces a strap which makes her bottom glow red. With a job well-done, he returns downstairs well satisfied. **Also** included on this tape is a selection of clips from the Moonglow Spanking Situations site, for those who are not signed up and curious to know what is included. The clips are longer than those shown on the site.

C32: Maids for the Birch They had different standards in them there days. Two young maids, who work for the squire, are caught stealing and eating apples in the Beadle's garden by the squire. He sends them home immediately but it is too late, The Beadle has spotted them. Soon after, the plump beadle arrives at the squire's mansion demanding to birch the girls. The squire supplies him with a birch, and the Beadle waddles up to their rooms to give them a good birching. When he is gone, the squire is furious, having been severely embarrassed by the actions of his maids. He produces a cane and calls them down one by one for a thorough caning, not being overly impressed by the birching that the Beadle has handed out.

C33: Secretary, Moonglow Style 2003 saw the release of Secretary (with Maggie Gyllenhaal as Lee Holloway who is spanked several times by James Spader as E. Edward Grey) and the vast amount of publicity that followed. We thought that we would rework it into a form that Moonglow would support. In our version, the new secretary arrives on Friday afternoon for her induction. She finds her predecessor being thoroughly spanked even on her last day. She is then appalled by the old manual typewriter that she will be expected to use. How will she avoid making mistakes! But it gets worse on her conducted tour, they come across the paralegal being caned for fiddling her expenses. Over the weekend, she has some strange urges and, when she gets back from the night-club on Saturday night, decides to experiment. She spans herself with a hairbrush then masturbates to an unusually big orgasm. On Monday, she turns out to be a rather idle secretary, and is very rude to an important client. You can imagine what follows.

C34: Tartan Tanning For this video, we head north to Scotland, the home of the tawse or belt as it is known up there. At the Moonglow Academy, the prefects look after most of the discipline. Banners and Simpkins are two enthusiastic prefects and keen to do their duty when they catch Lucy and Ulrika enjoying a illicit bottle of wine. The girls are hauled off to the prefects' common room and the canes are brought out. Prefects are only permitted to administer six strokes. But Banners and Simpkins decide to take a bottom cheek each and each one to administer six strokes to one cheek. Near the end, the deputy headmaster arrives and is not to pleased with what is going on. In fact he thinks that it is on the verge of serious bullying. He sends them all out and calls them back one at a time for a sound strapping, the prefects for bullying and the others for boozing. By the end, the strap makes all the girls' bottoms glow red.

C35: Caught and Caned Peter Caruthers and his mistress, Angela King, are off to dinner. She likes to go out with a hot glowing bottom; Peter is more than happy to oblige. When they return, Angela catches a thief climbing out of the toilet window. They are shocked to find that the burglar is a girl called Daniela. Given a choice, she opts for a sound caning rather than a visit to the cops. During the caning, it turns out that Angela left the toilet window open. After Daniela is sent

off with a striped bottom, it is Angela's turn. Her caning is very different from the glorious spankings that she so loves.

C36: The Matrix Moonglow Style plus eight other CP stories. **The Matrix Moonglow Style:** Goodies and Baddies, based on the Matrix films. In this twist to the theme, the girls find their bottoms being soundly spanked whenever they step out of line, which is often. **Tale Number Two: The Chemistry Master's Car.** Pranks are frowned upon. This one gets Winston a double caning; six for taking part and six for not sneaking. **Tale Number Three: Chewing Gum is banned.** Winston likes her chewing gum and when it is banned, it gets her a sound leathering. **Tale Number Four: RAF Cadet is Caned.** RAF Cadet receives six of the best for letting rifle off by accident. **Tale Number Five: Sent Home for Smoking.** Sally is sent home when she is caught smoking. When her step father arrives, she is smoking again and he takes a gym-shoe to her pert bottom. **Tale Number Six: Late Night Out.** Sally dreads when her mother goes away. Her step-father does not hesitate to give her a hiding when she breaks his rules, such a getting home in good time. **Tale Number Seven: No Smoking.** A sixth former is spanked for smoking behind the bike sheds. **Tale Number Eight: You WILL go to College.** A sixth former wants to become a beach bum. Her teacher canes her until she agrees to go to college. **Tale Number Nine: Tanned Tart.** A prostitute is spanked by a bible basher, to little effect.

C37: From Mind to Bottom. Part One: From Mind to Bottom or Jane's Delight. Jane is Hugo's mistress. One of his favourite games is to phone Jane and tell her how he is going to spank or cane her. He knows just how erotic she finds these games. First we see him call her and remind her how he spanked her last time they met - her bottom in the air, raised by her pillows as his hand made her bottom a glorious red. A little later, he calls her back again to tell her to meet him at his office after work. He tells her how she will have to dress up as a school girl for a well deserved caning. You can imagine what this does to her. [30 minutes] **Part Two: From Bottom to Mind or The French Au Pair's Delight.** French au pair, Chloë, loves her erotic chats with her boyfriend; but bad move having them in her boss's study. He is not amused when he catches her. She is shocked when he promptly spanks her. When he produces a selections of straps, she cannot believe her eyes. But she is even more shocked when she finds that she loves the feel of a glowing red bottom. [23 minutes] **Part Three: The Persistent Offender.** Some young ladies think that they are too old to be spanked. When the headmistress's patience runs out with a difficult sixth former, she resorts to traditional methods and gives the sixth former a well earned spanking. [4 minutes]

C38: The Wicked Kane Club. Peter is the manager at the Wicked Kane Club. We first meet him when he is punishing Angela, his mistress, because she slapped a club member's face. During the punishment, Karl, the club's backer with his girl friend, Daniela, arrive and goad him to spank Angela harder. Then Cindy, the new waitress, arrives and is shocked at the scene she witnesses. Karl is not impressed, however, and gives Daniela a sound spanking to demonstrate what she will receive if she starts whingeing again. Later, it is discovered that a case of scotch has gone missing and all three girls are summoned back to the office. The interrogation continues with a liberal use of the cane to encourage the girls to admit the truth. It is a long, hard job but the men know it has to be done for the good of the girls. (Joint production with Top Marks / Kane Magazine).

C39: Nikki and the Cane. Nikki Montford has developed a reputation of being one of the toughest young ladies on the spanking scene. Her fortitude under the sting of the cane has become legendry. Over the last two years, she has made a number of clips and short stories for our websites. We thought that this excellent work should now be recognised and brought together as a DVD-video. The following stories are included here for your entertainment. (1) A Hundred Strokes in Jodhpurs: She plays a girl working in a riding stable who has an irresponsible attitude. It costs her bottom a 100 strokes of various canes and riding crops, while bent over a whipping stool. (2) Prepared for the Cane: Here she plays a precocious sixth former who enjoys banter and innuendo with her housemaster before he canes her. (3) End of Term Caning: In this section, she is a sixth former who is sent home with a well thrashed bottom when she is bottom of the class. (4) The Lazy Cleaner: In this story, Nikki is an arrogant and lazy hospital cleaner. Her boss gives up on her, takes her to the boiler room, and applies a big black paddle to her bottom with enthusiasm. (5) The Caning Log 1967: Presented in diary format, she receives six of the best four times in 1967. The housemaster does not fail in his duty. 65 minutes.

C40: Approved School. Norah and Prudence absconded and have been brought back by the police. The third girl that they escaped with is still missing. They are locked in the cells over night, to await a thrashing next morning from the director, Mrs Edna Savage. They start discussing their previous punishments. Prudence tells Norah about her canings at her posh public school. Norah tells Prudence about her punishments from her father in law. In the morning, the director punishes both girls. They receive extra punishment because they refuse to say where the third missing girl has gone. At the end, Norah's father in law turns up, saying that Edna is too cruel. He gives her a taste of her own medicine, assisted by the girls. 60 minutes. (Joint production with Top Marks / Kane Magazine).

C41: Best of the Cane. We have selected caning clips from the entire twelve years in which Moonglow has been producing DVD-videos. They come from all three directors who have contributed to the Moonglow productions. This DVD focuses on nine girls who have contributed significantly, amongst others, to the UK female caning scene. The girls are Alison, Aura, Emma, Jenny, Karen, Lorraine, Melissa, Lucy Bailey and Sandra. In addition, we have included a scene

from a one to one recorded by John shortly before his death. Finally, there is a very realistic scene called Visit to the Headmaster's Study. Four six formers are summoned to his study after breakfast and given six very hard strokes each across their scantily clad bottoms. Not to be missed. 120 minutes.

C42: The House Master's Duty Cornwallis and de Ville have been reported to Ms Sutherland for smoking weed (pot). She is very angry but wants to know where they obtained the pot. They refuse to tell her so he gives them both ten strokes of the cane. When they still refuse, she tells them to go to Mr Radford's study individually. Nicola comes in first. He strip searches her then spansks and paddles her, all to no avail. He canes her again and sends her away. Penelope is no more cooperative but he decides a search would be a waste of time. After paddling her he goes out to the toilet. When he returns he hears Nancy the school nurse arguing with Penelope. He beats Penelope again then sends for Nancy. Nancy denies that she is the supplier so Mr Radford spansks her. As she still denies it, he sends her to Mrs Sutherland. She paddles and canes Nancy. Then despite her earlier promises, she fires the wretched nurse.

C43: Caning News This is our new "DVD" newspaper; a selection of caning and spanking stories from our website for you to enjoy. *Caning News* includes: Anna Beaten Yesterday Evening, Braithwaite Beaten Twice, Druggie Carol Beaten, Lazy Sharon Sherringham Caned, and Triple Caning in College. The *Spanking News* sections includes: Asha's Big, Shock, Double Spanking by Mr Jones, The Edwardian Maid, Mrs Baraclough gets a Hiding and Nurse Mavis's First Punishment.

C44: Caning News 2 Another selection of clips from the Moonglow website. The eight clips, with six different girls, have a cumulative running time of eighty minutes, again split half and half between spanking and caning.

The clips are: *Bottom of the Class*: Lazy Nicky hates studying and is caned each fortnight as she remains bottom of the class; *Prefects' Punishment*: Naughty Nicky pays three visits to the prefects' common room, to have her bottom thrashed; *Gardener Birched*: A old style gardener at a girls' school has a row with a teacher and is birched for her efforts; *A Dress for Spanking*: This time one dress - a very mini skirt - results in three young ladies being spanked. *A Dipsy Wife's Bottom Roasted*: Asha promises her husband that she will stop boozing; failure results in an inevitable spanking. *Waitresses Spanked*: When their work becomes sloppy, they are shocked to be sentenced to sound spankings; *Triple Schoolgirl Thrashing*: Three very cheeky sixth formers blatantly smoke in the school yard. Big mistake! *Mrs Baraclough's Humiliation*: This is the sequel to the first Mrs Baraclough story in Caning News 1.

C45: The Punishment Files An unmissable selection of clips from the Moonglow website. The sixteen clips, with eight different girls, have a cumulative running time of sixty five minutes. You can play them straight through (**Play all**) or select your favourites from the menus. We see a surly sixth former, played by pretty newcomer **Cammi**, receiving four very sound canings. Has there ever been a more caneable bottom on the CP scene? But the delights do not end there. Top CP star **Nikki Montford** is soundly paddled as a lazy house wife who likes to dance naked in the kitchen rather than make her husband's dinner. After that, she plays a sixth form bully who receives six of the best in her swimming costume for ducking another girl. Finally, in **Spanked at Work** are included five clips of young ladies being spanked in work type situations. Alison is one of the young ladies offering a perfect bottom for these scenarios.

C46: Backpacker's Hundred A young backpacker arrives on an idyllic Pacific island with some pot in her luggage. Silly! She is absolutely astounded by the summary justice that is administered for such a crime on the island; a hundred strokes of the cane. Senior members of the island government are allocated twenty five strokes to administer, each with rather different caning technique. (40 minutes)

Also on this DVD are three short stories from the days of prefecthood. In the first, *Cruickshank's Caning*, jealousy causes a prefect to have her love rival, a non-prefect, caned. A little later, three prefects are on duty at the swimming pool. But cocktails and boys are of more interest to them. In *Triple Spanking* and *Triple Caning*, we see how the swimming master deals with these useless prefects. (20 minutes)

C47: Wynter's Tales is the story of two lesbian lovers - Wynter Prendergast and Carol Everson - a relationship that started when they were sixth formers at a posh school. In the first reminiscence, they are caught in bed together and sent to the headmaster for ten strokes of the cane each. Wynter is made a prefect first and we see her give Carol a sound six of the best. A little later Wynter is deprefected and Carol appointed in her place. Carol of course uses this chance to get her revenge, with six of the best for Wynter. The story then moves on to the time Wynter introduced Carol to a dungeon, where she cropped and caned by Wynter with enthusiasm. Next Christmas, Carol is very late back from the office party; Wynter seizes the opportunity to thrash Carol yet again, this time over a special stool she has made for the purpose. Finally, as the girls chat about corporal punishment in their relationship, Carol suddenly decides that it has gone too far; she soundly spansks and paddles the stunned Wynter! (48 minutes)

Plus two shorts School Dance Fiasco (6 minutes) and After Concert Triple Caning (4 minutes)

C48: Corporal Cane(s) **C48** is the story of a bruising encounter between the Corporal and an unruly aircraftswomen, Helen Harper. The rebellious Harper is sent to a special disciplinary unit run by Miranda Canes. Harper thinks it is very amusing when she tells the 'Corp' that she was caned at school for putting a drawing pin on the teacher's chair. When the

Corporal is called out for a few minutes, Harper cannot resist playing the same trick on Miranda. She is furious and sends Harper out for half an hour while she tends her bottom. When Harper returns the cane will see front line action. But rebellion is in Harper's heart; pity the poor Corporal's bottom as well. (48 mins)

Plus two shorts *Twelve in the Morning, Six in the Evening* (5 mins) and *A Caning Fantasy* (13 mins): Two workings of the same caning here. First, Anna Thorpe is summoned to the headmaster's study for a severe caning for persistent tardiness. Second, five years later, she is summonsed by her boss from her hotel bedroom. She feels like being called again by her old headmaster and reworks the caning in her mind, as she plays with herself.

C49: Housemasters' Wives Here we see three young wives of masters at a posh school who have to suffer the same punishments as the students. First in the *School Play Fiasco*, the dress rehearsal of the staff play is a shambles; the irate English master calls in the three wives who had caused such a shambles. The wretched women are spanked and paddled, to their utter amazement. In *After the Hen Party*, the three wives are arrested by the police. The furious headmaster instructs their husbands to cane them. *Sixth Form Memories* is a flash back to the days when the three women were in the sixth form. The badly behaved sixth formers caused mayhem in those days and their housemaster did not hesitate to thrash them when necessary. Finally in *A Painful End of Term*, we see a scene where the irritated English master is seriously concerned about the work of two of the girls. They are called just before they go home, to be soundly caned. They leave with tears in their eyes and stripes across their shapely bottoms. **Plus A Suitable Bottom for the Cane** (20 minutes) Some bottoms are perfect for caning. In the this story we see a young lady caned at various points in her life; as a naval cadet at school, a posh student, security guard and house wife.

C50: The Mischievous Maid (42 minutes) Molly, our cheeky maid, played is hauled in to see the squire by Lady Elizabeth, the squire's wife. The maid is accused of putting a laxative in the guests' sugar bowels the previous evening. The result was a social disaster. The irate wife demands that the squire thrash the maid, who is (apparently unknown to the wife) having an affair with the squire. He is quite happy to strip her off and give her a good spanking. But he is in awe of the girl's seductive smile, and when she accuses Sally, the house keeper, of substituting the laxatives, Sally is soon having her bottom smacked. Then her ladyship returns and is furious as Sally is her lesbian lover (apparently unknown to the squire.) After a row between the Sally and Molly, Mr Cornish, the bursar is called in, and the girls are dragged off to the manor's classroom to be soundly caned. But the cane elicits the truth. It turns out that Lady Elizabeth was responsible, in order to get her revenge on Molly for having an affair with her husband. So now the squire and the bursar take it in turn to thrash her ladyship.

Plus Prison 100 (42 minutes)

Flavia Hope is a dreamer. When she reads *The Prisoner of Zenda*, her brain goes into overdrive. She drifts off and imagines that she is in a prison, refusing to disclose who was her partner in crime. She is sentenced her to one hundred strokes of the cane. She is taken to the punishment room and tied over a stool. The 100 is then administered immediately.

C51: Bottoms Up! (66 minutes) Late 1960s. The Moonglow Production of *Bottoms Up*, a burlesque show, is about to go on tour to London, Paris and Milan. Lead actresses, Prudence (Aleesha) and Stephanie (Xela), are not taking the show as seriously as they should and are always upsetting the well-meaning director and, worse still, the grumpy executive producer. As the show tours, the girls get into trouble time and again. At first, the director spanks them at each infringement. But the producer is not happy; he tells the director, in no uncertain terms, that the girls must feel the cane across their bottoms or be fired. Finally, for good measure, the producer canes both girls on their arrival back in the UK. (42 minutes) **Plus three shorts:** *The Chastised Shoplifter*: Set in the 1950's, a young wife accepts a caning rather than be prosecuted for shoplifting. (7 mins) *The Corporal's Wife* A domineering army corporal spanks his wife when she is late home; learning obedience the hard way. (3 mins) *The Caning of the Under Matron*. When Matron catches one of her assistants snogging a sixth former, the housemaster canes the under matron for such despicable behaviour. (7 mins)

C52: Caning News 3. This is another compilation of clips from our website, for those who do not have the internet or like the better quality of a DVD. The DVD contains eleven CP stories, six with canings and five with spankings. There are six actresses involved; Aleesha, Leia-Ann Woods, Elena, Sophie, Donna and Sami from the Philippines. Sami plays a maid who is music mad. This results in her being spanked by the father in law when the family are away and master of the house when they get back. Aleesha and Leia are two secretaries at a posh public school. Miss Woods (Leia) causes chaos by putting the wrong letters in some envelopes. On the instructions of the headmaster, senior secretary Aleesha is ordered to cane Miss Woods. But to her horror, the headmaster decides to cane her as well for her part in the shambles.

Sophie plays a sixth former who is beaten twice in one term for shoplifting. Soon after, she leaves and lands a job in an office. The morning after the Christmas party, she is found snoring at her boss's desk. He is not amused and spanks her without hesitation. A year later, she reminds her boss what he did at the previous Christmas party. This time he strips her naked before making her bottom glow red. This is Sophie's first video, so her reactions are very natural as are her tears in the toilet afterwards, when she examines her chastised bottom.

C53: Games Housewives Play. This DVD is a sequel to Kane DVD, *Games School Girls Play*, with Sally and Jennifer. Set ten years later, in the first part, Jennifer phones Sally. Sally lying naked in bed, the girls discuss their CP experiences,

which turn Sally on in a big way. Then Sally's husband shows up, and she has to hang up rapidly. He is very annoyed with Sally and the part ends with him making Sally bend over the bed for a sound caning. **Part two** starts when the girls return from an expensive shopping trip. Soon the subject of conversation is back on corporal punishment. They remember their last visit to the headmaster's study where they were soundly thrashed as well as when Sally was appointed a prefect before Jennifer. The Sally used her authority to cane Jennifer; later Jennifer extracted her revenge. **Please note:** This DVD-video contains some graphic sexual scenes as well as serious use of the cane.

C54: The Cane and I. The setting is a posh finishing school in the 1960s. Two pupils are caught smoking and sent to the principal. He spansks and canes both girls. But their rebelliousness does not stop there. The exasperated man transfers the two girls to the Swiss version of his finishing school, where the principal is even stricter. Attired in their new uniforms, including long white gloves, they are sent to the principal on arrival. Aware of their reputation, he beats both girls immediately, as a first instalment on any transgressions they may under take in the future and a timely reminder what will happen if they break any of his strict rules. Emma and Sophie provided exquisite bottoms for the cane. **In part two**, a student (Katja) is spanked by her tutor, which brings memories of the cane flooding back. He is surprised at her enjoyment of the spanking. She recounts her experiences of the cane to him and how they excited her. He in turn tells her of his predilection for whipping the bottoms of pretty young students. Later he takes her to a dungeon. There, the girl is taken to new heights of pleasure with the whip.

C55: Students' Folly. It is rag week, and the College Principal is kidnapped in a fundraising prank. Two students, Ellen and Hermione, are the ring leaders, and Drs Fordham and Aimes the exasperated tutors. The result is a liberal use of spanking and caning to establish the culprits and exact due retribution from the wretched students. (46 minutes) plus **Cynthia's Punishments:** *Late fifties*, Cynthia is sent off to a posh finishing school, where there is great pressure to succeed. But hard work does not come naturally to Cynthia, and the temptation to cheat in her mock A-level exams is overwhelming. Caught, she is sent to the principal, who takes a very poor view of her behaviour. The result is 12 severe strokes of the cane. *Early sixties*, Cynthia has landed a job at a posh company. But flirting comes naturally to Cynthia and, when she is seen out with the boss of a rival firm, she is in trouble again. Her present boss decides to spank her, something she actually loves. Soon she is writhing with pleasure. But OTK is excellent for some G-spot massage. Three times her boss gives her a massive orgasm before completing her spanking! (23 minutes)

C56: More Punishment Files. This collection of spanking and caning stories covers a wide range. It includes three clips each from two top spankee models, Aleesha and Stacey, a couple of 1990s classic clips, plus *six of the best* clips from our web site. **Classic Clips:** *Maid for Punishment* was shot in 1993, but never used because of the full length format usual at the time. However, it includes a couple real and effective canings. Also there is *Amber's Punishment* is a rather ham-fisted clip, with Amber Scott, a leading 1980s spanking model. **Aleesha:** Three clips made in 2010 by Aleesha for our site - *Beaten Again*, *Aleesha's Fantasy* and *Gertie the Maid Gets Spanked*. **Stacey:** Three clips made in 1990s for Moonglow West. These are *A Secret Six of the Best*, *A Caning for the Taxi Ride*, and *Stacey's Punishment Hour*. **Six of the Best:** We have selected half a dozen excellent clips made in 2009 and 2010 for our web site. 1. Memories of Beating. (Gina) 2. The Strict Guardian. (Sophie) 3. Beating of Marjorie Manners. (Helen) 4. Six for Pamela. (Unknown) 5. The Spanking of Andrea. (Michelle) 6. A Paddling for the Maid, which stars Moonglow's very own Donna.

C57: Alison's Beatings from the 1990s. Alison's rear end was probably thrashed on film more than any other bottom in the world in the 1990s. Often credited as Alison de Brat in publicity literature, she was also extremely tough. In the extract from the *Condomania*, she receives six of the best from John, stands up and goads him for administering a feeble "sixer". As a result she receives a veritable caning, amongst the best ever shot on video. In the Tracey extracts, she shows her fellow secretary how to take a caning, and, boy, does her boss lay it on. She also takes a pretty good spanking on her very shapely bottom. This retrospective of films made by Alison in the 1990s includes eight caning scenes, four spanking scenes and four bondage scenes. (The latter have never been published.) They were all shot on analogue tape between 1992 and 2000, which means that some of the clips are not as good as modern digital standards offer. An all action DVD; enjoy. (120 minutes)

C58: All Girl Special. The first section includes five all girl scenarios, covering spanking, paddling and caning. The situations are all unrelated. They range from Catalina, the incompetent maid, to an American "slapper" visiting her friend in London, who is not amused by her attire. All star cast with Donna, Jean, Emma, Leia, Irelyn and Winter. In the second sections, we have a delightful cameo of Kami Robertson, who is irresistible. Playing a student, her tutor wants her to strip off and have a shower, before being caned for poor work. It becomes a trial of wills before she finally strips, but because of her intransigence he decides to cane her before she has her shower. Bent over, exquisitely nude, she is spanked and caned pouting away in a manner that only she can manage. Essential viewing for all who are delighted by the thrashing such of an attractive bottom. (75 minutes)

C59: Seven Striped Bottoms. This collection of short stories is a must for all caning enthusiasts. Included are twelve caning scenes with seven girls. The clips vary in age substantially. Two clips each with Emma, Sasha and Jo were shot this year while the clip with the voluptuous Stacey dates back to the 1990s. The themes cover a broad range: Emma is beaten for getting into a fight in a hockey match, while Jo, on a visit back to her old school, remembers being caned for smoking while skiving off during a tennis match. When Sasha visits her old headmaster to discuss a reunion event, she realises that the last time she visited his office was for a beating. In the mood of the current economic climate, Fiona is arrested for shoplifting while on holiday. The police are keen to save money. As an economy measure, they give her a sound caning, instead of taking her to court. See below for some of the best scenes. (105 minutes)

C60: The Erotic Art of Spanking. One thing splits spanking enthusiasts down the middle; erotic spanking. Half hate it and half love it. We have had an erotic clip site for many years, but the clips have never, to date, been used in DVDs. To see how people react we thought that we would produce one, but make it clear that it has erotic content. However please note that there is no graphic sex; just beautiful spankees thoroughly enjoying themselves. This DVD has contributions from four young ladies; Pauline, Gina Moon, Allison and Zoe Montana. The two Pauline clips were shot in the 1990s, with a young lady from who could not help getting frantically turned on by a spanking. Absolutely nothing is faked in here; proof of how some ladies love it. Gina Moon is a more cerebral spankee who found the cane a great challenge and would goad the caner to deliver more until she exploded in pleasure. Allison is an older spankee, proof of how spanking often becomes more powerful with age. This is one of her fantasies, where her jailer spans and fingers her with dramatic effect. Finally, we have Zoe Montana, in one of her very early clips, finding the touch of two canes over her body and bottom very stimulating. When the canes start to flick her bottom, harder and faster, she is in paradise. (75 minutes).

C61: The Husbands' Revenge. Miss Myers, with her sidekick Alex, run MMAWW, the *Miss Myers Academy for Wayward Wives*, which has just opened its doors for business. The academy specializes in bringing trophy wives to heel on behalf of their exasperated husbands. Aleesha and Ellie May are the first clients, sent by their irritated husbands to learn the art of being good wives. The voluptuous Joanna plays Ellie-May (pictured right, waiting for the cane), who cannot avoid being insolent, even when the cane is about to bite down on her fabulous bottom. The second part is **After the Reunion Dinner**. Edward and Stephanie have just returned from a reunion dinner. The last time she had met the headmaster was when she went to his study to be beaten. When she tells Edward this, he is intrigued and wants to know when else she was caned. Told in five short stories, Stephanie relates the times when her bottom was soundly thrashed. As she tells of the experiences, she becomes more inebriated, and in the last one demands that Edward chastise her. From somewhere, he produces a paddle and makes her bottom dance to its tune. Not to be missed stories starring the fabulous CJ at her best; watch her take the cane. (Total running time 90 minutes)

C62: Where Girls Get Spanked. The theme of this DVD is about places where young ladies are likely to experience the joys of corporal punishment. **Part 1:** The Private Detective's Office: This is a Moonglow update on all those Humphrey Bogart private detective films where the rich, spoilt young lady eventually got a very sore bottom. Here arrogant Candy Glitters (played by Chloe) tries to hire a PI to investigate her husband. But slapping the face of the PI does not build confidence. The result is that she gets a good spanking. But then he goes to visit Candy's husband, who recommends that the PI should give her a really good hiding if she turns up again, which is exactly what happens. This time it is the paddle and cane, applied with some gusto! **Part 2:** The School Master's House: This is one of the more obvious locations. In these two clips, a school master and his wife play CP games. The theme is basically that the wife admits to getting away with things at school and now the cane has caught up with her. **Part 3:** The Manor: Down in the bowls of Much Beating Castle far into the depths of the countryside, Sir Giles has his snug. One day he discovers that his spendthrift wife has excelled herself. Down in the snug he feels free to spank her soundly. **Part 4:** The Spanking Audition: Any audition for a CP movie is going to want to ensure that the young lady is up to the part. These two clips are extracts from Moonglow audition tapes dating back to the late 1990s. (Total running time 90 minutes; © 2012).

C63: A Finishing School.....With a Cane. This DVD is made up of twelve scenes from our website. The theme of sixth form girls misbehaving at a finishing school is always popular. Most of the scenes are of canings but with a few spankings thrown in. The participating girls are Gina, Chloe, Sophie and Melissa, so there is delightful selection of shapely bottoms. Here are two of the story lines: First, Gina Moon is back on CP duties after a five year break. Playing her favourite role of the surly sixth former, she hates rules; why should she not walk on the college grass? But the bursar is not amused. He drags her into the punishment room and spanks her. Later discovered on the booze, she is back for six of the best with the cane on the very next day. In another storyline, oversexed sixth former, Tamsin, is always in trouble. The result is that she is often bent over waiting for the cane. She keeps a meticulous diary of her beatings. In this section, we see four entries where her housemaster has thrashed her, mainly for taking more interest in young men than her work. The result is that these regular beatings seem to have little effect. The young lady who plays Tamsin is real tough cookie! (Total running time 93 minutes; © 2012).

Moonglow North Titles:

N01: Test Thrashing A young lady wants to make a spanking video, and goes to visit a photographer in his studio to discuss the idea. There she meets him, and a friend of his who is a frequent actor in such videos. Given her shapely figure, they are keen for her to make a video, but of course she must audition first. Excited by the idea, she agrees! Of course, she must experience all the appropriate instruments, and all the required positions. As the audition continues, she becomes quite excited by the whole idea. This is a scene that she is coming to enjoy, and participates with enthusiasm. The final fifteen minutes is a short called Paula's Punishment, where Alison, a favourite at our parties, plays the young lady in trouble. Her mother is away, so she uses her charms to persuade her mother's austere boy-friend to lend her his car, promising that she will not drink and be back before midnight; she returns at 2am half drunk. Furious, he does what he feels is long overdue. He spans her to little effect. His ire up, he produces his long dormant cane, and proceeds to sober her up with the liberal use of the yard of rattan across her most shapely bottom.

N02: Whack, Oh! The bosses have an eye on the delectable and very voluptuous Sharon. With her spankable bottom and superb figure, they have some great ideas planned out for her. With the assistance of the other secretary, the delightful Tracey, they lay a trap for her. A selection of spanking instruments are laid out in the girls' office. The two girls start experimenting with them. The two men walk in just when Sharon is trying one of them out on Tracey's bottom. They tell her that she has a lot to learn and demonstrate their techniques on Tracey, then they tell Sharon that she is to find out how each item feels. Tracey is sent off to get on with her work, while they get down to some serious punishment on Sharon. Her voluptuous figure gives them an ideal subject, which degenerates eventually into something much more erotic. But Tracey is curious! She peaks round the door, and is shocked to see what is happening. Despite her caution, she is spotted. Next morning, her boss confronts her. He tells her that, since she is jealous of Tracey, some of the same treatment is in order. He proceeds to spank her, then makes her bend over her office chair for a thorough caning. Her glowing red bottom at the end is proof of the effectiveness of her boss's work.

N03: Spanking Compendium One. We have reedited a number of Moonglow North Videos that were published between four and six years ago, for republishing. All the films have been shortened, by removing much of the padding, and maximising the action! (These edits have been made up from the original camera tapes.) They will be marketed as Compendium Tapes made up from three or four originals. Compendium One includes extracts from three original tapes. The **first part** concerns a young lady who applies for a secretarial job at an office, which has an unusual way of maintaining high standards. Her infringements are recorded and when they add up to a certain number a spanking ensues. The boss carries them out with enthusiasm. In the **second part**, a glamorous young wife is astounded when she finds out that she has become a pawn in her husband's gambling. When he loses, his gambling mates collect by giving her a spanking. Now her opinion of this game is not very good! In the **third part**, a young wife's house-keeping goes awry. But these things have a habit of coming out in unexpected ways. When her husband does find out, he produces a cane for some long overdue retribution.

N04: Nursing Her Bottom Amy Cole has just returned to nursing since her children have started school. However, she still likes to enjoy herself. A couple of weeks after starting, her husband finds something in the car that gives away her affair with a male nurse. Furious he decides that some punishment for his erring wife is long overdue. A firm believer in chastising a wife when necessary, he soundly spans, straps and then canes his wife. Her shapely bottom is ideal for this solution. But she is very late for work. Sister catches her as she tries to creep into the ward, still rubbing her bottom. Soundly ticked off, she is told that she will be in trouble if she is late again. Only a week later, she arrives chatting away on her mobile, and nearly half an hour late.

The bossy young sister tells her to attend her office at the end of the shift. Now Amy is unaware of the Sister's inclinations. She makes Amy stand while she spans her, one hand strapping her bottom, the other exploring her body. This turns Amy on, much to her consternation. Suddenly, she has had enough and pushes the sister away roughly. Astonished, the Sister gets out the cane, and makes Amy bend over her desk. Wounded by her passes being rejected, she lays into Amy's bottom with her whippy cane. When she finally lets Amy stand, her tears have made her mascara flow down her face. Amy's humiliation at being caned by a woman ten years her junior is complete. She would prefer her husband stripping her bottom any time!

N05: Spanking Compendium Two Another three parter which was originally issued about five years ago. In the **first part**, Prisoner Tracey is caught smoking in an area where it is forbidden. The formidable black warden, Penny, spans Tracey rather than reporting her. But the Governor and his deputy walk in during the spanking. They spank Penny, then turn to completing Tracey's punishment. The strap, the paddle, and finally the cane is applied to her shapely bottom. But being a tough Northerner, her bottom is a match for her efforts. Well punished and bottom glowing red, her tears turn to lust in a short time, and we leave them as they get down to other pleasures. In the second part, **Part Two:** Would you believe it, these two prefects get a job as strippers in the local night club to earn some extra money. Now one of the members of staff of their school visits the club! The headmaster and the girl's house mistress are going to nip such activity in the bud. They spank and strap the girls, before applying the cane with gusto, to ensure such a thing never happens again

Part Three: Briony has been too active, and the local cop shop becomes interested in her activities. But Eddy, the policeman, has his own ideas. Briony jumps at the prospect of avoiding a visit down to the nick, an option she eventually rues.

N06: Spanking Compendium Three This compendium has two very different stories. In the first part, Mr Jones, a hen-pecked and unhappy husband, calls for the assistance of the **CP Administration** to deal with his bossy nurse of a wife. Following a lesson in the principles of domestic discipline, the CP administrator carries out the first punishment himself, to good effect. Working through the slipper, martinet, strap and birch, he proves that her northern grit does not extend to her bottom. Finally, she is sent off to put on her school uniform for a taste of the cane. A job well done! The second part, **Discipline School**, is a visit to the sixth form of the Moonglow Academy. Two lippy young ladies make the mistake of photocopying the lines that they have been set as punishment. Soon it is off to the punishment room, first for some spanking and tawing before the traditional cane appears. Now this is a headmaster who takes his time and does the job thoroughly. Finally, there are two all-girl shorts, the **Insolent Maid** and the **Wicked Step-Mother**.

N07: Spanking Compendium Four Part One: The Secretary Talk about getting into trouble on your first day at a new job. Young Lorraine - tall, sultry, long dark hair, a cheeky demeanor and a shapely bottom - is more interested in the spanking instruments on the desk than getting on with her work. When she is caught smoking the bosses cigarettes, the sparks fly. It's out, or a thorough spanking! Soon her bottom is dancing to a range of instruments. But the sincerity of her promises doesn't ring true. She is taken next door and bent over the end of the couch. Her red bottom high in the air, the cane whistles down across it time and again. Some really serious caning here; a deeply striped bottom and an exhilarating experience for young Lorraine. Don't miss it! **Part Two: The Shoplifters** A couple of shapely shoplifters, played by Alison and Stephanie, are caught in an **Antique Shop**, trying to leave with some valuable items. In no time their leggings are down to reveal shapely bottoms, overdue for a good spanking. But due to any lack of real contrition, both girls receive twelve strokes with the cane as well. A true deterrent to any further such activity.

N08: Spanking Compendium Five Part One: Late for Work In the first part, a secretary is persistently late and the the head of the typing pool takes matters into her own hands. She spansks and canes the girl. However, the boss discovers what is going on and is not impressed. He does the job properly, on both girls. Substantial all girl action here. **Part Two: Spanked for Speeding** In the second, a police inspector is concerned about the standard of driving of the wife of a friend of his. He turns up at her house, and stuns the wife with an original offer; be prosecuted or be spanked. After some thought the wife agrees. The Inspector gets down to the job, with some enthusiasm. **Part Three: A Hand for Peter.** The last part is more traditional. Peter is at his wits end with his wretched eighteen year old step daughter. Then, one evening, he has a drink with an old friend, Alan, who suggests a solution. A few days later, following a letter from her headmaster, she is confronted by the two men. Now is the time for some direct action to persuade the young lady to mend her ways. Encouraged by Alan, Peter gives the girl a well earned red bottom, and a neat set of cane stripes!

N09: Spanking Compendium Six Part One: The first is a flat mates' discipline story where one discovers the other has been smoking pot, and roasts her friend's bottom as a result. **Part Two:** The second takes place in a hairdressing salon where an arrogant and difficult stylist eventually get her come-uppance at the hands of the furious owner. **Part Three:** Finally, we see Camilla dealing with a truculent sixth former, who has forgotten what the tradition six of the best is like. She remembers, as Camilla applies her skills to the full on the shapely girl's bottom, with the usual results!

N10: Spanking Compendium Seven Part One: I want my pictures back! The first story is a spanking tale with a difference; a young model is unhappy with a set of pictures that a photographer has taken of her. She wants them back, but it's not that simple. He blackmails her! If she wants the pictures, she has to take a good hiding first. Oh, dear. The wretched young lady has to experience the full range of his spanking instruments, finally leaving with a glowing red bottom, severely striped nates and her photographs. **Part Two: Sixth Form Rebellion Ended** The second story is more traditional. Peter is at his wits end with his wretched eighteen year old daughter. Then, one evening, he has a drink with an old friend, Alan, who suggests a solution. A few days later, following a letter from her headmaster, she is confronted by the two men. Time for some direct action to persuade the young lady to mend her ways. Encouraged by Alan, Peter gives the girl a well earned red bottom, and a neat set of cane stripes! **Part Three: Spanked in the Attic.** A venture guide has heard of girls being taken to the attic for punishment. When she steals some money, she discovers that it really exists.

N11: Moonglow North Highlights. Two hours of extracts from numbers N01 to N10.

N12: Humiliated Neighbours. This is the raunchiest Moonglow North video yet. When friends Alison and Jane move into a semi-detached house, Alison goes around to meet her new neighbour, Joe. While he is in the toilet, she steals his credit card and the girls go a £2,000 spending binge that evening. Big mistake! Joe is a firm believer in corporal punishment and more than happy to exploit his new found power over the girls. Next morning, he summons Alison to his house for a spanking, a caning and more than a bit of erotic play. But of course she blames Jane, who is summoned the next day. The activities with Jane become ever more torrid that the previous day. But she is also honoured with a glowing red bottom and a neat selection of stripes across her bottom before she returns home. Jane has passed the blame back to

Alison, who is called round again the next day for further treatment. Of course she has mixed feelings as Joe's blend of punishment and pleasure is a new and exotic element to her life. How much more pleasure/pain can her body take? (65 minutes)

N13: Legal Beatings Be warned. This is a strong video and should not be shown to anyone with a weak constitution! A local Police Drug Squad has developed its own methods of dealing with drug traffickers; "C.P. or Confinement." They make those who agree to C.P. also return for further doses of punishment. They even video tape some of their efforts! Moonglow has managed to get hold of some of their recordings and instead of selling them to the News of the World for a large sum of money; we have decided to offer them to our members. There is not much dialog; just 55 minutes of non-stop action. First we see Sarah whipped. Then we see her back again; spanked, strapped and caned. Then she is compelled to entrap another pusher (Jane). They catch her red handed and they give her a merciless flogging, finishing off with a formidable caning. Genuine tears are shed!

N14: Beaten Bimbos. Alison is back in this latest Moonglow North video. Always popular - she has lost track of how many videos she has starred in - she is as good as ever in this one. Here, two earthy North Country girls rent a flat, with the view to stripping and selling the contents, as soon as the landlord has gone. However, they find a cache of money as well. Bingo! But the landlord comes back for his money and catches them. Now northern landlords take no hostages. First he makes them spank and paddle each other, then out come the canes, with no holds barred.

N15: Molly's Hundred. Alison shows her steel in this one; she takes a hundred and five strokes of the cane. Nothing is faked - she counts each and every one. For what it's worth, the story line is simple. She plays Molly, a gangster's moll, who is caught in bed with one of the gangster's heavies. He escapes before he can be identified and she refuses to say who he was. The gangster soundly paddles her backside, but she still refuses to tell. He tells her that she will get 100 strokes of the cane after lunch if she doesn't say. But after lunch she is still adamant and he carries out his threat. It is only at the 105th stroke that she gives in!

N16: Secretarial Tea-Leaf. This was meant to be two half hour videos with girls completely new to the scene. **In the first part**, Peter, a company director, discovers that his secretary has made many unauthorized transactions on the company credit card. In fact, she has worked the card hard in her own interest, and it costs her bottom dear; an interesting debut for a new girl to the scene. **The second part** is a complete disaster, but interesting as a result. The acting is frankly awful throughout. The girl bottles out near the beginning of the caning. The moral of this part is that making a spanking video is not nearly as easy as so many people think.

N17: The Spanking House. Shot in the mid 1990s, the young Alison is working in a Spanking House when an American client arrives. He produces a paddle which she cannot cope with. Eventually, she up sticks and storms out the house. The American is furious and makes the wretched receptionist complete the one to one with him. When Alison returns later, the receptionist is furious and threatens to sack Alison. However she relents when Alison agrees to give the American a free one to one, in which he will try out every instrument in the house on her shapely bottom. Your chance to see a young Alison really put through her paces.

N18: Thawed Bottoms. Filmed in 1995, this is one of the more interesting Moonglow North titles. A cottage was rented deep in the Pennine Hills in Northern England for the shoot. In good British tradition, the whole area was snowed in just as the crew arrived. In good Moonglow North tradition, they made the best of the situation. At one point, both girls are spanked in two foot of snow although, not surprisingly, it is quite a short scene. Anyway, the theme is of two venture leaders sent on a leadership course for winter training. They are shocked to discover the strict regime that has been designed for them, with strict consequences if they transgress the strict rules. Soon their bottoms glow red, which in some ways is no bad thing considering how cold they become during the exercises. (Please note that, despite the best efforts of our editor, time has affected the colour, giving the film a rather pastel effect.)

N19: Army Hundred. Alison, Jane and Nikki are three young army privates at a week-end camp. But Nikki has gone AWOL in order to see her boyfriend while Alison and Jane finish the guard duty. Near the end, Jane is cleaning her rifle and accidentally discharges a clip of ammo, nearly killing Alison. All hell breaks loose; all three are put on a charge and summoned to see the Chief next morning in front of the rest of their company. Initially the girls are reluctant to tell the truth, and the Colonel sentences them to a triple spanking to try to break their wall of silence. They are spanked simultaneously, the room echoing to the smacks. Alison soon cracks and explains what has happened to the horror of the other girls. Nikki is sentenced to 50 strokes of the cane for going AWOL and Jane 100 strokes for dangerously discharging a rifle, while Alison escapes with no more punishment. Running time: 46 minutes. **Plus** Four quality clips from the Moonglow Pay Site. (14 mins)

N20: Angela's Fact and Fantasy. Angela is a crazy mixed up kid. At her college, Oscar the caretaker is responsible for corporal punishment. Angela calls him uncle and has fantasies about him. When she has to report to him for punishment, her fantasies run into overdrive. In her room, playing with herself naked on the bed, she imagines what is to come, but very much her own version. A little later, she is in Oscar's sitting room for some real spanking and caning. There, to her

horror, is the tuck shop owner, from whom she stole some sweets, waiting for her. Oscar spanks her in front of the shop owner, then both of them apply a range of paddles across her shapely bottom. Finally it is the cane from Oscar. Back in her room, naked on the bed again, her fantasies go back into overdrive. She imagines calling out to Oscar to spank her again, saying that he did not do a very good job. Finally her mind really becomes truly imaginative as she goes into a bondage fantasy, spiced up with candles. How long will it be before she gives Oscar more reason to chastise her?

(Please note that this DVD has some graphic sexual scenes.)

N21: Caning Caretaker. The Caning Caretaker (40 minutes) Two pretty young wives enjoy going to the caretaker's flat in the basement for some flirting. One evening Susan leaves her mobile phone behind before she and a friend go out. He reads her texts and discovers that she is going to see her lover. When she returns, he blackmails her. Take a caning from him or he will speak to her husband. Finally she agrees and he gives her a full session of corporal punishment, including paddles and a sound caning. True punishment for a voluptuous young wife! **The Caned Nurse (23 minutes)** Mr Fortescue hires two young nurses while he is recuperating from his operation. But they are both most unsatisfactory. He has to spank one for cleaning above his head while he is in bed, showering him in dust. The other's timekeeping is appalling. After many warnings he decides to give her a good caning to buck up her ideas; boy, does her bottom suffer! **The Caning Game Keeper (25 min)** Moonglow favourite Alison is back in action here. When the game keeper catches her lighting a fire in his grounds, she is dragged back to his cottage, where he has a broad range of instruments ready and waiting to be applied to her bottom. Alison cannot believe what is happening to her, and especially to her bottom. She will be learning the *Country Code* as soon as she arrives home.

N22: Office Pokes. This is the full, uncensored (Hardcore) version of N02: Whack, Oh!. A full fifteen minutes of graphic sexual content has been restored, increasing running time from 65 to 79 minutes. The story line is unchanged but now you see what Alison saw through the keyhole in Whack, Oh! (See N02 for story line).

N23: Burning Ambitions. Two models arrive at the *Burning Ambition Model Agency* looking for glamour modelling work. But the owner reckons that they are rather spankable and tells them that the only available work is in a CP film, and that he has been commissioned to audition any girls that apply for the work. Reluctantly the girls agree to the auditions, and the lecherous owner spanks, whips and canes them. He also tells them that the parts they will be playing are lap-dancers so they have to demonstrate these skills as well. One can confidently say that this man enjoys his work. His receptionist will verify that! (54 minutes)

plus five clips from our website.

One Man and his Cane ** John was creative director of Moonglow from 1995 to his death in 2002. He directed some thirty DVD-videos under the series title *Moonglow West*, in which he demonstrated his high degree of skill in the wielding of the cane across attractive female bottoms. His favourite model was the divine Stacey whose stunning body enhanced any CP film. This DVD is a tribute to his skill and devotion to his craft. Included here are extracts from fourteen of his best DVDs, twelve of which show John personally in action. He wielded a mean cane but never fell out with any girl with whom he worked. A gentleman to the end, his charm and enthusiasm took him through any crisis, even if his actors were at war! For example, in CP therapy (left), leading 1990s CP actress, Julie, a true affectionado, takes a long, formidable caning from John. Lucy Bailey was another genuine enthusiast who often worked with John, and had an intense debate with him on the best way to film a scene. Lucy went on to produce her own films, having observed John at work. Like all artists, John had his eccentric side. His rubber chicken and silly abbot's outfit was more than made up for by top quality CP action.
