Moonglow's Spanking Entertainment No: 2 - *CP World* (on DVD or CD-Rom)
Fifty four clips with a total running time of over ninety minutes.

CP World has **three** sections; The World of the Cane, The World of Spanking, and Annabelle's Diary. **The World of the Cane** discusses the development of the cane from its introduction as an instrument of punishment in the British Public Schools of the Victorian era to the appropriate means of chastisement of errant young ladies in the modern era. **The World of Spanking** discusses spanking in the wider world, including cinema, newspapers, theatre, cartoons, songs, art, advertisements, history and many other areas. Finally **Annabelle's diary** is a fictional diary of a six former in a British Public School in the early seventies, recording the liberal application of the cane to the bottoms of the nubile young ladies around here.

All three sections are amply illustrated by clips, stills and text.
